Professional Summary

MERN Stack Developer with hands-on experience in building and optimizing scalable full-stack applications using React.js, Node.js, Express.js, and MongoDB. Worked as an intern at Global IT Providers (GIP), where I contributed to real-world projects by:

- Developing responsive frontend components in React
- Implementing backend APIs with Node.js and Express
- Managing NoSQL databases using MongoDB

Skills

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS	Backend: Node.js, Express.js	Database: MongoDB, Mongoose	Tools & Platforms: Git, GitHub, Vercel, Render, Postman, VS Code
--	-------------------------------------	------------------------------------	---

Experience

Global IT Providers (GIP)

MERN Stack Intern

- Built responsive user interfaces using React and Tailwind CSS
- Developed and tested backend APIs using Node.js & Express
- Managed MongoDB schemas and optimized data handling with Mongoose
- Collaborated with team using Git and GitHub for version control

Projects

AI-Powered News Aggregator

- Built a real-time news platform fetching data from multiple public APIs
- Integrated Gemini AI to summarize articles for better readability
- Used Natural.js to deliver personalized content recommendations
- Implemented Firebase Authentication with SSO
- Added live update functionality using Socket.io

Blogfoster

- Developed a full-stack blogging platform with user authentication and content management
- Enabled secure account management and blog publishing using JWT and session control
- Built complete CRUD operations (create, read, update, delete) for blog posts
- Designed a scalable, responsive UI with React for seamless UX

Education & Certifications

Bachelor of Computer Applications (BCA)

MERN Stack Development Certification
